Attaching the TSP100/TSP650 Stand

1. Unpacking : Confirm that all of the accessories are included.

M3 x 6 screws
Stand

Bottom Cover

2. Attachment Procedures :

2-1. Assembling the Stand

① Position the stand rail with the three openings in the bottom cover. Fit the two projections on the stand into the holes in the bottom cover and press firmly until you hear a clicking sound.

② Gently pull on the bottom cover to ensure that it is securely attached.

2-2. Connecting the Cables

Pass the cables through the holes in the stand to connect to the connector on the printer.

Note: Depending on the shape of the cable connector, there are cases in which it cannot be installed.
